## ADM/PDM Network

• Arrange these tasks in logical sequence using:

- A) An Arrow diagram and
- B) A Precedence Diagram.

Activity A initiates the project.

Activity A precedes B, C, and D, which proceed concurrently.

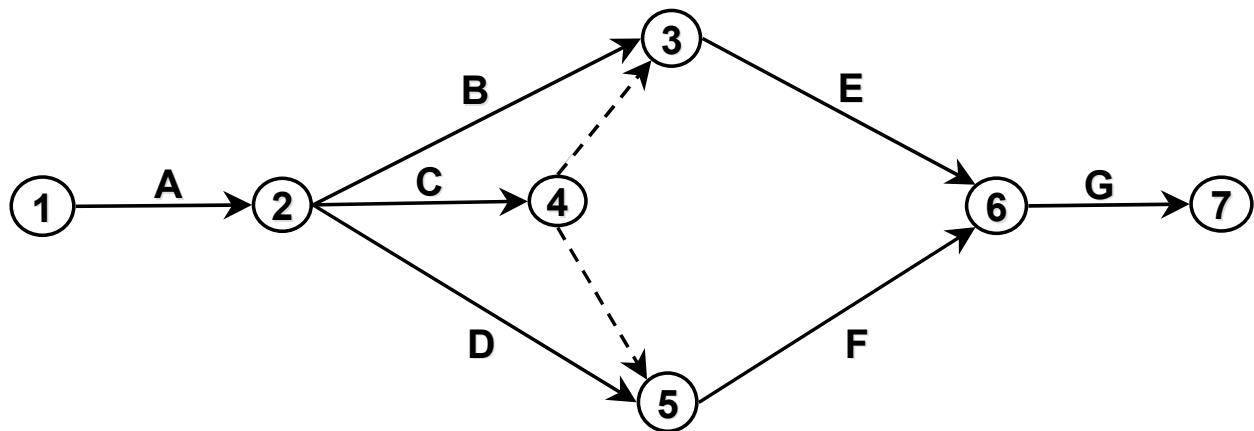

Activities B and C precede activity E.

Activities C and D precede activity F

Activities E and F precede activity G.

Activity G completes the project.

Alternate Solution  
(Non-Computer Solution)
